Propane Tank – Procedures

Working together to keep Hot Springs Village beautiful, the Architectural Control Committee (A.C.C.) and Community overall appreciate that any Propane Tank is aesthetically pleasing, within procedures and complies with the Arkansas Liquefied Petroleum Gas & Container & Equipment Code.

Permits are valid for (6) six-months from the date of issue. There will be a re-filing fee for expired permits.

It is the responsibility of the owner and/or contractor to request inspections, call 501.922.5562.

Propane Checklist:

1. Application
2. Drawing indicating the location of the tank, a description of the tank and details of the installation
3. Complete Permit or Re-Filing Fee

Propane Tank General Regulations:

1. L.P.G tanks may be located only after the Public Works Department has installed the sewer lines and sewer tank.
2. L.P.G. tanks must be buried underground; (Exception: 100 lbs cylinders, maximum of four cylinders, or less are not required to be buried or permitted).
   a. L.P.G. tanks for commercial buildings may, at the discretion of the Permitting and Inspections Department, be reviewed and approved to be placed above ground.
3. All buried utility services must be shown on the drawing. The drawing must be to scale of one (1) inch = twenty (20) feet.
4. Multiple hook-ups will be reviewed on a case by case basis.

Disclaimer: No warranty is made or implied to any individual property owner that the actions of the A.C.C. in the approval process to obtain a HSV Permit is intended as a tacit approval of the quality, safety, desirability or suitability of such design or construction.

Administration Fines: Fines will be imposed by the Hot Springs Village POA for failure to obtain the proper permit (prior to any work being performed) of $150.00 for any single incident infraction with a $25.00 per day fine for ongoing infractions.

Revised Date: 4-17-14
